SOLFIRE

Soleil Systems introduces the SOLFIRE, a truly unique tanning experience encompassing the aesthetics and options of a super bed with the practicality and value of a dependable midrange unit. Designed to be a staple of any modern salon.

SOLFIRE overshadows the competition by offering an all-metal, visually-pleasing, superiorly-designed, generously-optioned unit priced for less than you ever imagined.

T-MAX® Timer System

Multi-Colored Decorative Panels

Premium Hand Finishing

Sky Blue

Daisy Yellow

Frosted Rose

SOLLUX

Expect more from a SOLLUX* than a beautiful, bronze tan. Above all, the UV light lifts the spirit and reinvigorates the body, providing a feeling of relaxation in a pleasant warm atmosphere of comfort and luxury. Clients will look and feel as if they've visited a health resort.

FEATURES

All-Metal Construction

Soleil Systems challenges the industry norm by replacing excessively used and cheaper plastics with durable all-metal housings, end caps, and components. An eye for quality is demonstrated in the seamless finish and beautiful oven-baked enamel encompassing the steel body.

Frosted Acrylics

Unlike clear acrylics, frosted acrylic surfaces diffuse the UV transmission evenly throughout the bed allowing for a natural-looking, even tan.

Ballast Tray

The ballast tray is easily accessible by sliding off the front skirt panel. The ballast tray can then be rolled out for convenient servicing.

Body Cooler

Four blowers are conveniently positioned to provide a light breeze over the tanning surface, ensuring a comfortable atmosphere.

SOLSMART RESIDENTIAL LINE

For the budget-minded individual, the SOLSMART series is designed to deliver the maximum value for the home tanner. The SOLSMART comes equipped with canopy and bench of clear acrylic, durable leg base, plastic end caps, and a metal chassis for years of durability.

FEATURES

- Clear acrylics

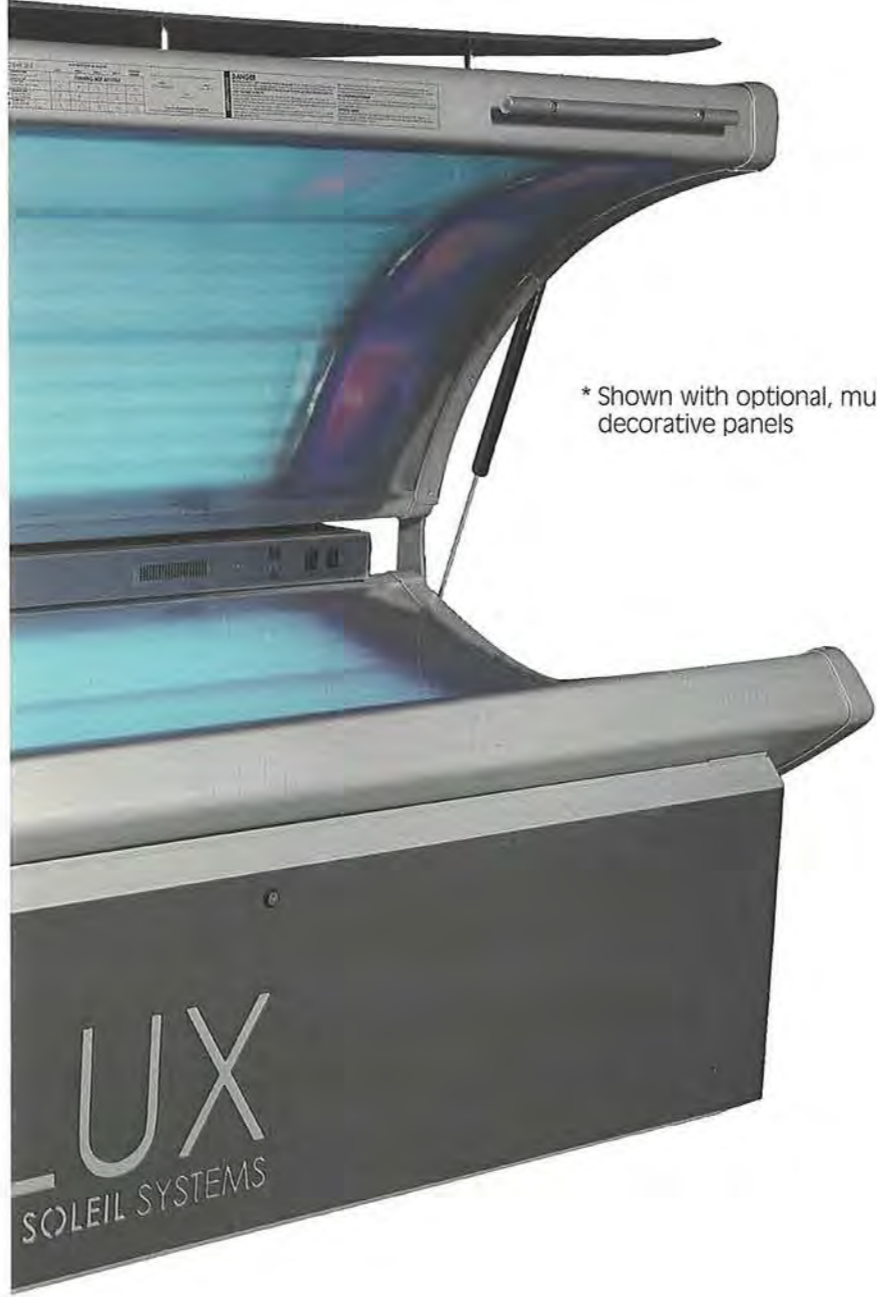

- Plastic end caps

- Leg base

- Spring timer

SOLTECH RESIDENTIAL LINE

Designed for the tanner who expects a luxury tanning experience, the SOLTECH is equipped with a body cooler for a perfect cool breeze, dual sun facial lamps, and frosted acrylics, virtually ensuring a rich, golden tan. The stylish front panel gives this bed form plus function for a luxurious tan that gives the user a good feeling—inside and out.

SOLLUX

Available (Top to Bottom): Fire Red, Black Noir, Mediterranean Blue

FEATURES

- Frosted acrylics
- Spring timer
- Body cooler fan
- Front panel base
- Plastic end caps
- Dual sun facial lamps

High-Pressure Facials
Each SOLLUX has the option to be fitted with the latest in Heraeus Z4 technology. Three 400W high-pressure lamps are strategically positioned to insure a vibrantly blended facial tan. The specially designed filter glass gives an ideal balance of UV-A and UV-B releasing the most efficient and best parts of the spectrum for a pleasant, yet powerful, tanning session.

Digital Timer
Stand-alone or front-desk control interface capabilities gives you all-inclusive lamp hour counter, unit hour counter, and session counter.

SOLTECH SALON HPF

The SOLTECH Salon HPF* and SOLTECH Salon provide ergonomic design and maximum comfort. The designer has used minimalist styling to give the SOLTECH an expressive yet balanced character. Equipped with a remote ready digital timer conveniently located just above the tanner, it functions as a countdown timer while keeping track of the canopy, bench, and total lamp hours. With high-powered facial lamps, body cooler, frosted acrylics, and full skirt, the SOLTECH combines comfort and style.

* Shown with optional, multi-colored decorative panels

FEATURES

- Frosted acrylics
- Full skirt base
